

“For I know the plans I have for you,” declares the Lord, “plans to prosper you and not harm you, plans to give you hope and a future. Jeremiah 29:11

Where we started...

ECA began in 2000 as the result of earnest praying from a mom that desperately wanted a God-centered Christian education for her children. Karen Benson not only prayed hard but she dedicated herself to making it happen. She proved through the hard-fought years that she was more than willing to do what was necessary to make it happen and God blessed her dream. Starting in a very small location with only 7 students it has grown into the only private Christian school in Kingman providing academic excellence and sharing the love of God to over 250 students.

Where we are...

ECA is now at maximum capacity, even after adding a modular building this year. Children are waiting to get into the school. We don't want to turn any student away but we need to keep our commitment to our families and our teachers. Our commitment to maintain optimum teacher/student ratios limits our capacity to offer additional Christian education for Kingman. The Board of Directors, our administration, and our teachers recognize the importance of high academic standards, a safe structured environment and the appropriate time needed to share the word of God in our daily calling. This cannot be accomplished if classes are overcrowded and teachers can't find the time to make every student their top priority.

It's time to take the next step!

Where we're going...

More classrooms, challenging academic and extracurricular offerings, dedicated space for our ECA teachers and staff eventually to include a private Christian high school for Kingman. Our teachers and administration make significant sacrifices to bring the best education and environment to our students. One of ECA's key initiatives is to address appropriate compensation for these quality educators. We have focused and will continue to focus faculty. A response to these needs can only be met by partnering with our community and people who care about upcoming generations in Kingman and the surrounding area.

What we need to get there...

Growing ECA has been a blessing, but not without challenges. God has provided what we've needed, when we've needed it, and by His grace and mercy we are still growing strong after 22 years. He has shown us that whatever the challenge if we have faith and pray for His will to be done our needs will be met through benevolent families, the Kingman community, and our dedicated faculty and staff. water
